

(no subject)

The closure of the Merbein Cba's branch has put a hardship on customers due to the availability of getting cash the other bank in town has a hole in the wall but you have to pay \$2-50 for each transaction and every time I have been there to use it the machine is out of order

You can also use the local supermarket to get cash but they have limits on what you can get and at times very limited on cash you can take out otherwise you have to drive into Mildura to get cash

Not always convenient and how are the older people access their cash that do not drive

Public transport is also very limited in the township
