

Regional Banking.

Hi !

I believe it is incumbent on the Govt and the Task Force to urgently facilitate the creation of a Postal Bank in Australia.

The Govt. facilitated Oligopoly of the four major banks are and have been , working actively against the interests of all Australians [except themselves].

Real banking facilities are an inherent Right for all Australians.

The Fed. Govt. in undermining the rights of all Australians, is undermining itself. It WILL pay a price at the ballot box.

Thank you. Ian Best.
