Subject: Concerned about health care in Australia

Afternoon responding to requests from the public as in to measuring what matters.

I live in Regional QLD. I am growing more and more concerned about equable access to health care in Rural Regional Australia.

Currently we are struggling in FQNLD to keep pace with demand. Many GPs are no longer bulk billing patients. Many people in FNQLD have limited access to public transport to access Health care. Many are financially disadvantaged. Many struggle to access affordable training so that they can improve their quality of life. Rentals and access to safe housing are also a concern in FNQLD.

As a result we are seeing an increase in those who seek comfort in self medicating themselves with substances It breaks my heart to see the impacts of poverty on people.

[REDACTED]. This is what matters to us all. We want

to be treated fairly

I do have many more gripes but health & dental care are my mine ones
